Recent Rains Work Wonderful Benefits to Cane Plantations

Precipitation Comes as if Deliver ed to Order and Vields Will Overrun Estimates.

The rains of the last few days could not have been better for the plants tions if they had been made to order said John Waterhouse of Alexande and Baldwin yesterday. The long period of cool, dry weather has he'pest the harvesting. The cane has gained in percentage of sucrose and purity of juice. The yield will over-

tions, he said.

With the season of warm weather at hand rain was Watther at hand rain was needed April one and it came exactly on time. Waterhouse stated that the Maui cross are about five-eights harvested and Kausi and Onhu just about half. Hawaiian Commercial and Wailuku will both be finished before the end of

June.

Speaking of prices Mr. Waterhous said that it looks very much as though the refiners will make exceptionall large profits this year, as they are the refiners will make exceptionary large profits this year, as they are buying everything in night at the very low prices quoted. As soon as the bulk of the Chiban erop in corpored raw sugar prices as well as refined will go up and the buyers of raw will make very large profits. He said he make very large profits. He said he make very large profits. He said he doubted very much whether the consumers would benefit from the cut in the protective duty.

Champ Clark Said to Be Behind Kansas City Man for Collector of Port Billet Here.

(From Wednesday Advertiser.) George H. Wiley, a Kansas City man related to the pure food expert and a personal friend of Chump-Clark, is slat-Rule a question of difference of reli- od for the position now held by Colleccion which is at least as important to tor of Port E. R. Stackable, according those concerned as whigher iroland as a whole shall have Home Rule or remain strictly under the Crown as she is now. In this connection, we quote from an article, by Mr. Lovat Fraser. There is another point on which English onlookers sometimes go astray. They hear a great deal about Belfast and very little about the rest of Ulster. pose of his business interests in Missouri and Kansas before leaving for Ha

Islanders Prominent in Letters and Science Selected to Membership on Committee of One Hundred of Pacific Division of American Association for Advancement of Science.

(Special Correspondence.) SAN FRANCISCO, March 31,-Ten

of Hawaii's most preminent men letters and science may be selected to erve on the Committee of Ose Hundred of the Pacific Division, American Association for the Advancement of Science, of which Mrs. Phoeba-Hearst will be honorary president. The ten will probably include Hon. Sauford B. Dole of the United States court; Lorrin A. Thurston of the Hilo Bailroad and the leading advocate of the development of scientific research at the Volcano of Kilauen; President Arthur T. Griffithe of Oaku College; Dr. William T. Brigham of the Bishop? Museum; Hon. Albert F. Judd, seantor; Rev. Deremus Scudder of Central Union Church; Hon, William R. Castle; Rev. W. D. Westervelt; Dr. N. B. Euerson; Ralph S. Hosmer, territorial for-ester; Frank Atherton, and Montague

Cooke.

These ten, in addition to the henorary features of their appointment, will be asked by the Pacific Division here to support the convention of, the American Association to be held in August, 1915, in San Francisco.

Director Campbell, who is chairman of the general committee in charge of this convention, expresses his purpose in organizing this association as follows:

in organizing this association as follows:

"It is intended that the Committee of One Hundred shall be composed of citizens who represent the best elements of life west of the Bocky Mountains, including the Islands of the Sea. Mrs. Phoebe A. Hearst will be president (honorary); there will be five or six vice presidents (honorary); Benjamin Ide Wheeler, University of California, will be the chairman; President Branner, Leland Standord University, will be the next member. We seek the names of there who represent what is best in the leading units of population, and from these lists the membership will be brought up to the number of one hundred. The names need not be necessarily floor connected with educational systems, but they should be of those who are looked up to no leaders in the intellectual life of the state. Financial standing is itself state. Pinancial standing in itself should cut no figure; but if there are prominent gitteens who are recognized
